Note:

- All dimensions stated are in millimetres
- When ordering, always state the height dimension first
- All aluminium frame sizes detailed above refer to the outer frame dimensions of the door exclusive of the fixing fin
- All configurations are viewed from the outside looking inside
- XO & OX doors can be reversed after installation
- All sliding panels are positioned on the inner most track(s) with any screens to the outer track(s). This situation may differ for XXO and OXXXXO configurations - check with your G.James Representative
- The frame size of all 2100mm high doors supplied to N5C3(W60) category sites will be at 2054mm high
- Sizes up to 2400mm and low profile sill available on request
- Black hardware is supplied as standard
- The availability of certain sizes and configurations are dependent on the design wind load requirement of the site - check with your G.James Representative
- Drawings may not be to scale
- Available on request (additional charges apply):
 - Finger joint pine reveals (clear pine, meranti, LOSP treated, primed and Tasmanian oak available upon request). When ordering state the width of reveal required.
 - Security, acoustic and energy efficient upgrades
 - Non-standard sizes
